Latest

The youth club has grown considerably over the last year with numbers reaching 46 on a Thursday, cascading down to Tuesdays. Great fun with lots of activities going on, we constantly review what we do in order to fit the children and young people that we work alongside, listening to their suggestions for trips and programme ideas.

Our fundraising efforts continue in order to continue to upgrade the youth club facilities, selling signs made by young people at local events and increasing our presence and profile in the local community.

Other News

Summer

Although we don't have current funding to run all projects over the school holidays we adapt what we do to enable us to run trips and the detached project, this summer we are taking a group to Cosmo in Bristol.

Detached work

The detached team go out on the streets of Yatton and Claverham and chat with young people, signposting them to groups, clubs and any information they may need help with, in the recent hot weather the team have headed out with ice lollies and cool drinks and offering

FREE Yatton Youth Club chip vouchers every now to offer young people a place to go and make links with the other youth club staff.

every now to offer young people a place to go and make links with the other youth club staff.

We work closely with the local Parish council and police responding to any live issues in the community.

Did you know...? You can hire the youth club space? For further information please contact Niccy on the number or email in the blue.
