## Latest

The big news is that phase 1 is complete, it looks Amazing and we are looking forward to a warm winter.

We have high hopes for further development of the youth club and have been overwhelmed by the support we have received by local businesses, charities and individuals.

## Other News

Regular youth club open sessions continue for all aged 8-17 and recently we have enjoyed a term with numbers increasing and activities have altered to suit the programme and young people we work alongside. Last term we ran a trip to Crealy theme park and ensured the young people's idea were implemented in phase 1 of the renovation and this term the young people are gathering ideas for the youth club decoration.

### Junior Session

The biggest change (alongside the youth club building) has been the introduction of a Junior session for those aged 7-11 that has proved very successful so far with great numbers. All enjoying cake making, a trip to laser tag plus much more.

### 1-2-1's

1-2-1 work continues to be a success, with youth workers supporting individuals with issues that young people may face and enabling them to grow and explore new opportunities.

### Detached work

We have experienced great contact with young people around hangstones, working alongside the local police and responding to any signposting from local sources.

As the nights draw in so will the detached project until the numbers increase around the village in the spring.
