**NEW YOUTH
CLUB KITCHEN
ON ITS WAY!!!**

We have been successful in our funding bid to the national lottery. Work is due to start on a new kitchen and layout in Spring 2019. In addition once work is completed, a weekend youth led café has also been supported by the lottery fund. Huge thanks to the big lottery fund.

What's been happening?

Detached

The Youth Club Detached team have been out and about over the fair weather season, meeting young people where they are, signposting them to local information, further education, groups and organisations.

Junior Management Committee

We have recently set up a Junior management committee where young people are able to input into the running of the youth club and see their ideas come to fruition.

Junior Youth Club Nights

Well what an amazing couple of months! We have seen youth club numbers soar to over 60 young people. We have loads of activities going on from slime making, a firm favourite! To baking. Craft and sports are enjoyed every week.

What are we working on?

The Usual

We run four open youth club sessions per week during term time, a detached project, 1-2-1 youth work support and a great volunteer programme.

Youth Led Cafe

Having successfully gained the funding from the national lottery, next year we will be opening the youth club building on a weekend in order for young people to run a café to support activities held at Rock road playing field, which will be open to all, opening times will be available nearer the time.

Outdoor Space

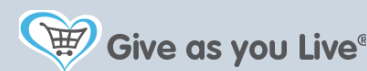

With numbers having risen regularly, Yatton Youth Club have put up extra lighting and are seeking funding to create a rain cover for outside the back of the youth club so users can still play as the weather and dark evenings set in.

Additional Funding

We are overwhelmed at funding that has come in from North Somerset Council which will go towards building work to start on the new accessible toilet.

Coming Up.....

- 100 Years remembrance day service, Yatton war memorial, Yatton Youth Club hosting refreshments after the service, approx 12pm.
- Youth Club kitchen reverb April 2019
