

# Chestnut Park Primary School

May 2020 - Newsletter 05

## Dear Resident,

As you can see below, the Structural Framing System is nearing completion. You can check for hourly updates via the webcam link: <https://api.t-lap.se/5a5ba9/>

Our next focus will be on the windows, brickwork, internal partitions and the mechanical and electrical installations. We have also been clearing the vegetation around the site , to enable us to start the fencing to the boundary over the summer.

The majority of the works which require heavy machinery will be coming to a close after which we will be focusing on internal work.

Hi, I'm Taylor and I am a Management Trainee Surveyor with Willmott Dixon.

I have been working for Willmott Dixon for 18 months and prior to joining I was a Trainee Surveyor for a Local Housing Association. My role differed slightly, due to working on existing housing stock instead of new build construction.

During my time with Willmott Dixon, I have spent several weeks with other departments, to understand their role and how that will help me in the future.

As a Management Trainee Surveyor I assist the Senior Surveyor working on the project. I work closely with the site, supply chain and operations teams to ensure the materials and labour are value for money, when procuring the packages for the job.

At present, my main role on the Chestnut Park Primary School project is to help the Build Managers out on site due to Covid-19. I will be helping our supply chain partners with their queries and also carrying out quality checks.

## MEET THE TEAM ON SITE

Sam Winterton  
Senior Building Manager

## OUR COMMITMENT IN YOUR COMMUNITY

The world is filled with enough ordinary. It's our responsibility to make it extraordinary. That's why every project we take on at Willmott Dixon has to deliver a positive and memorable impact.

***For our communities, it means places not just to live in but to thrive in.***

## A note to our Friends & Neighbours

We appreciate you may be asking why, during the current restrictions on people's movement to combat coronavirus, is our site open.

We wanted to assure you that we are working in accordance with Government advice, which states that it is important for construction work to carry on wherever safe to do so.

This is because the Government recognises that the important infrastructure we build, like here, can only be delivered on site. However, to remain operational, all construction sites must follow strict guidelines to ensure the safety and welfare of people that work on them.

Our project follows Public Health England guidelines and adheres to the Construction Leadership Council's Site Operating Procedures to ensure social distancing requirements are met.

Working closely with customers and our supply chain, we have adjusted our welfare facilities to ensure social distancing can be maintained in all places, including the canteen, and have increased our cleaning and hygiene regimes. This is reviewed throughout the day to ensure the strict guidelines are being met.

We want to assure you that we are doing everything possible to ensure we operate safely and in accordance with the very latest Government advice.

Any queries, please drop us a line at: [sam.winterton@willmott Dixon.co.uk](mailto:sam.winterton@willmott Dixon.co.uk)

Please stay safe and well as we work together to defeat coronavirus.

**Your friends at Willmott Dixon**
